Sprint Retro	spective, Iteration #3			Project Group 8		
User Story	Task	Assignee	Estimated Effort	Actual Effort	Done?	Notes
Kevin Al	Implement AI	Sina	4		2 N	Computer broke down
Power ups	Implement power ups	Imko	2	!	7 Y	Took longer than expected because of trying to use scheduled threads
	Implement generic power up				Υ	
	Implement 2x score power up				Υ	
	Implement 2x speed power up				Υ	
Password Reset	Send an email to the user to reset the password	Imko	6		7 Y	Still prints to the console, should find a way to remove this
	Create email sender class				Υ	
	Create new screens to update password				Y	
Problem #1: Hardware Issues Sina's laptop broke down and he didn't commit his Al changes so they have to be reimplemented.						
cina o iaptop broke ac	will and the didn't commit the 7th changes so they have to	se reimpiementeu.				
Problem #2: Databas	e issues					
Too many connections to the EWI database						
Adjustments for	the next Sprint Plan					
	oval of merge requests					
Be more responsive a	nd quick when it comes to approving merge requests.					
Adjustment #2: Specificity of code reviews						
•	n it comes to code reviews.
